GEMSTONES ARE ROUTINELY ENHANCED IN A MANNER COMMONLY ACCEPTED BY THE TRADE.
ALL OF OUR GEMSTONES ARE "E" FOR ENHANCED UNLESS OTHERWISE STATED.

Both of the above statements about treatment are unacceptable because they are overly broad and do not have the specific enhancement code for the gemstones listed on the commercial document. See "CORRECT DOCUMENT". Furthermore, the "E" code for enhancement is no longer acceptable under AGTA requirements. A specific code must be used.
